Dear Kansas City Neighbor,

This is a friendly project update about the 89th Street Sidewalks project. You might have received an invitation to a public meeting scheduled for later this month. Due to health and safety concerns and social distancing recommendations from public health experts surrounding the Coronavirus outbreak, **there will be no public meeting for the 89th Street Sidewalk project at this time.**

But we know how important it is to share project updates and information. Read on for more information about the project, timeline, and contact information. You can also access project updates online at <https://www.kcmo.gov/Home/Components/FacilityDirectory/FacilityDirectory/183/360> or read the project fact sheet on the back of this letter.

The KCMO Public Works Neighborhood Projects Division will be constructing a new sidewalk on the south side of E. 89th Street from Holmes Road to Main Street. This project makes an important sidewalk connection for the neighborhood and students walking to school.

The sidewalk project is currently being designed. Public Works anticipates work to begin in late 2020 and wrap up in mid-2021. The schedule is dependent on weather and coordination with property owners on right-of-way access. This project was made possible by District 6 Public Improvements Advisory Committee (PIAC) funds.

Please feel free to contact me at the phone number above or by e-mail at maggie.green@kcmo.org if you have any questions or concerns. The project manager for this project, Randy Alewine, can be reached at randy.alewine@kcmo.org. We appreciate your cooperation during this process and look forward to building a new sidewalk on E. 89th Street!

Sincerely,

Maggie Green
